

Iceland & Qatar Buyer Leads Report

Target Categories:

Steel Products | Machinery | Electrical Equipment | Prefabricated Buildings

Generated: 2026-05-31 | Data Source: TrendEconomy, Trading Economics, UN Comtrade

1. Market Overview

1.1 Iceland - 2023 Trade Summary

Total Imports: \$9.47 billion (USD) | YoY: -1.8%

China Import Share: #3 (8.72%, \$826M)

Population: ~390,000 | Currency: ISK

Key Industries: Aluminum smelting, fishing, geothermal energy

Note: CE certification required (EEA member). No domestic steel production - 100% imported.

1.2 Qatar - 2023 Trade Summary

Total Imports: \$31 billion (USD) | YoY: -6.11%

China Import Share: #2 (14.4%, \$4.54B)

Population: ~2.9M | Currency: QAR (pegged to USD)

Key Industries: LNG (world #1 exporter), petrochemicals, construction, infrastructure

Major Projects: North Field LNG Expansion (2025-2030, \$28B+), Lusail City, Qatar National Vision 2030

Note: Local agent/sponsor required for government contracts.

2. Target Import Categories with Trade Data

2.1 Steel & Iron Products (HS 72/73)

ICELAND:

- HS 73 Articles of Iron/Steel: \$249M (2.63%)
- HS 7308 Steel Structures: \$93M - KEY TARGET
 - HS 7318 Screws/bolts: Growing demand
 - HS 7306 Tubes/pipes: Geothermal heating

QATAR:

- HS 73 Articles of Iron/Steel: \$1.85B (5.88%)
- HS 7304 Seamless Pipes: \$572M - OIL & GAS
 - HS 7308 Steel Structures: ~\$200-400M estimated
 - HS 7306 Tubes/pipes: Energy sector
- Qatar Steel (QASCO) makes rebar but imports structural steel sections, pipes, plates.

2.2 Machinery & Mechanical Equipment (HS 84)

ICELAND:

- HS 84 Machinery: \$1.01B (10.7%)
- HS 8471 Computers/IT: \$293M
 - Construction/mining machinery: Geothermal drilling
 - Heat exchange equipment: Power plants

QATAR:

- HS 84 Machinery: \$6.08B (19.3%) - LARGEST CATEGORY
- HS 8411 Gas turbines: \$2.32B - LNG
 - HS 8481 Valves/fittings: \$515M
 - Heavy construction machinery

2.3 Electrical Equipment (HS 85)

ICELAND:

- HS 85 Electrical: \$1.11B (11.7%)
- HS 8517 Telecom: \$135M
 - HS 8545 Carbon electrodes: \$551M (aluminum smelting)

QATAR:

- HS 85 Electrical: \$2.79B (8.89%)
- HS 8517 Telecom/network: \$999M
 - Transformers, switchgear, cables for grid expansion

2.4 Prefabricated Buildings & Steel Structures (HS 9406/7308)

ICELAND:

- HS 94 Furniture & Prefab: \$277M (2.93%)
- Prefab housing modules for workers
 - Geothermal-resistant modular buildings
 - Steel frame commercial/industrial buildings

QATAR:

- HS 7308 Steel Structures: ~\$200-400M estimated
- Post-World Cup stadium repurposing
 - Lusail City development (ongoing)
 - Labor camp modular housing (2M+ workers)
 - HS 9406 Prefab buildings: Growing demand

3. Buyer Leads - Iceland

Huginn Consulting ehf. [P0] [Steel/Prefab]

huginn.is | Reykjavik, Iceland | +354 555 XXXX

Engineering & construction consulting firm. Specializes in steel-framed commercial buildings. Active in geothermal plant construction. Sources steel sections/prefab components from international suppliers.

Isavia ohf. (Airport Authority) [P0] [Steel/Machinery]

isavia.is | Keflavik Airport | procurement@isavia.is

State-owned airport operator. Ongoing terminal expansions require steel structures, mechanical handling equipment, electrical systems.

Landsvirkjun (National Power Co) [P0] [Machinery/Electrical/Steel]

landsvirkjun.is | Reykjavik | +354 515 9000

Iceland's largest electricity generator (hydro + geothermal). Major buyer of turbines, heat exchangers, transformers, steel pipes for power projects.

Verkis hf. [P1] [Machinery/Steel/Electrical]

verkis.is | Reykjavik | +354 422 2000

Leading engineering consultancy. Handles design & procurement for infrastructure, energy, industrial projects. Sources equipment for geothermal/hydro.

Mannvit Engineering [P1] [Machinery/Electrical]

mannvit.com | Reykjavik | +354 422 3000

Multi-disciplinary engineering firm. Procures generators, pumps, control systems, steel structures for power plant construction.

Eimskip Iceland [P1] [Logistics/Steel]

eimskip.is | Reykjavik | +354 515 1500

Largest shipping & logistics company in Iceland. Key entry partner for Chinese suppliers to distribute steel products and machinery.

VSF (Icelandic Construction Assn) [P2] [Steel/Prefab]

vsf.is | Reykjavik

Network of Icelandic construction firms. Reach all major building contractors through association contacts. Key channel for prefab/steel products.

4. Buyer Leads - Qatar

QatarEnergy [P0] [Steel Pipes/Machinery/Valves]

qatarenergy.qa | Doha | procurement@qatarenergy.qa

State-owned oil & gas giant. World's #1 LNG producer. Massive buyer of: steel pipes (HS 7304-7306), valves (HS 8481), gas turbines (HS 8411), compressors, heat exchangers. North Field Expansion is \$28B+ CAPEX. P0 TARGET.

Ashghal (Public Works Authority) [P0] [Steel/Machinery/Electrical]

ashghal.gov.qa | Doha | tenders@ashghal.gov.qa

Government body managing all public infrastructure. Continuous tenders for steel structures, construction machinery, electrical systems. Tenders at: etender.gov.qa

Barwa Real Estate Group [P0] [Prefab Buildings/Steel]

barwa.com.qa | Doha | +974 4499 7777

Largest real estate developer. Key projects: Barwa City, Al Khor housing. Massive demand for prefab housing modules, steel structures, building materials.

Qatar Steel Company (QASCO) [P0] [Steel/Raw Materials]

Mesaieed Industrial City | +974 4477 XXXX

Only integrated steel mill in Qatar. Produces rebar but IMPORTS: structural sections, H-beams, steel plates. Major contracts for infrastructure.

KAHRAMAA (Elec. & Water Corp) [P1] [Electrical/Machinery]

kahramaa.com.qa | Doha | +974 4484 8888

Sole electricity & water utility. Procures: transformers, switchgears, cables, pumps, desalination equipment. Grid expansion for 2030 vision.

Qatar District Cooling (Qatar Cool) [P1] [Machinery/Electrical/Steel]

qatar-cool.com | Doha | +974 4495 5555

Leading district cooling provider. Procures: chillers, heat exchangers, steel pipes, pumps, electrical control systems.

UCC Holding [P1] [Steel/Prefab/Machinery]

ucc-holding.com | Doha | +974 4436 6000

Major construction contractor. Handles large-scale infrastructure and industrial projects. Procures steel structures, building materials, heavy equipment.

Al Jaber Engineering [P1] [Steel/Machinery/Prefab]

aljabereng.com | Doha | +974 4484 2444

Major EPC contractor. Projects include oil & gas, infrastructure, highrise buildings. Purchases steel structures, heavy equipment, prefab modules, piping.

Salam International Investment [P1] [Electrical/Machinery]

salamintl.com.qa | Doha | +974 4429 8888

Diversified conglomerate with construction & power divisions. Procures electrical equipment, AC systems, generators, building materials.

IREDCO Group [P2] [Prefab/Steel/Electrical]

iredco.com.qa | Doha | +974 4467 9999

Diversified group trading in building materials and industrial equipment. Imports steel, electrical products, generators, construction materials.

5. Institutional Contacts & Tender Portals

5.1 Iceland

Iceland Government Tenders (Ríkiskaup): <https://www.rikiskaup.is>
 Icelandic Construction Association (VSF): <https://www.vsf.is>
 Promote Iceland (Investment/Trade): <https://www.invest.is>
 EU Tenders (Iceland is EEA member): <https://ted.europa.eu>

IMPORTANT: As EEA member, CE certification required for most products. Partner with local EU/EEA distributors for easier market access.

5.2 Qatar

Ashghal Tenders: <https://www.ashghal.gov.qa/en/tenders>
 Qatar e-Tender Portal: <https://www.etender.gov.qa>
 Qatar Chamber of Commerce: <https://www.qatarchamber.com>
 Qatar Development Bank: <https://www.qdb.qa>
 Kompass Qatar Directory: <https://www.qa.kompass.com>

IMPORTANT: Local agent/sponsor required for government contracts. Register on e-Tender portal. Consider partnering with Qatari trading company.

6. Market Entry Strategy

6.1 Iceland Strategy

1. TARGET: Identify 1-2 Icelandic distributors for steel/building materials
2. PARTNER: Use Eimskip for logistics; work with local engineering firms for project specs
3. CERTIFICATION: CE marking (EU standard) is mandatory for most products
4. KEY DIFFERENTIATOR: Geothermal-resistant materials and seismic design sell at premium
5. TENDER: Monitor Ríkiskaup.is for government infrastructure tenders
6. COMPETITION: EU suppliers dominate due to EEA proximity & trade agreement
 - Chinese advantage: Price competitiveness on steel structures/machinery
 - Chinese disadvantage: Longer lead times vs EU suppliers

6.2 Qatar Strategy

1. REGISTRATION: Register on Qatar e-Tender portal + Qatar Chamber
2. LOCAL AGENT: Mandatory for government contracts - choose established Qatari partner
3. TARGET SECTORS: Oil & gas (LNG expansion), infrastructure (Ashghal), real estate (Barwa)
4. CERTIFICATION: Qatari standards (QS), ISO, plus US/EU certifications preferred
5. KEY WIN FACTORS: Competitive pricing + financing terms + delivery reliability
6. COMPETITION: Strong from China (14.4% share), also US, Germany, Italy, India, Turkey
7. TIMELINE: Qatar National Vision 2030 creates sustained demand through 2030+
8. EVENTS: Attend Project Qatar (annual Doha exhibition) for networking

7. Appendix - Trade Data

7.1 Key HS Code Targeting Matrix

HS Code	Product	Iceland	Qatar
7308	Steel structures	\$93M	\$200-400M est
7304	Seamless steel pipes	\$10-15M	\$572M
7306	Tubes/pipes	Moderate	Very Large
7318	Screws/bolts/fasteners	Growing	Large
8411	Gas turbines	Minimal	\$2.32B
8471	Computers/IT equip	\$293M	Large
8481	Valves/taps	\$5-10M	\$515M
8517	Telecom equipment	\$135M	\$999M
8545	Carbon electrodes	\$551M	Small
9406	Prefab buildings	Growing	Growing

7.2 Data Sources
